

VARUN KARAD

Co-Founder, LNK Energy

Varun Karad is a Co-Founder of LNK Energy. A driven and dynamic business leader, he has a proven track record of turning around businesses and driving growth in the renewable energy sector. Earlier in his career, Varun successfully revitalized his family's pharmaceutical business, an experience he credits as his own practical version of an MBA.

Varun's expertise spans solar, green hydrogen, biofuels, and waste-to-energy solutions. As Co-Founder of LNK Energy, he brings a future-forward perspective to clean energy, combining execution depth with long-term ecosystem thinking.

An entrepreneur with a passion for sustainability and innovation, Varun has led ventures that integrate technology, execution excellence, and scalable growth models. He is also the Co-Founder and CEO of REnergy Dynamics (RED), where he has built and guided the company from the ground up, pioneering an integrated renewable energy platform that addresses the evolving needs of the industry.

In his previous role as the Chief Business Officer of GPS Renewables, his expertise in growing renewables in India were invaluable and helped the company incubate projects worth USD 300 Million.

Varun's strong leadership skills, combined with his experience in stakeholder management and project execution, make him a valuable asset to the renewable energy industry.

He has a Bachelor of Economics degree from the University of Canberra, where he was awarded the Dean's Excellence Award. He has completed a Stanford LEAD Program from Stanford Graduate School of Business and a Business Credential of Readiness (CORE), Accounting and Finance, course from Harvard Business School.

Varun was named the 'Green Entrepreneur of the Year' in 2022 and featured in Entrepreneur India Magazine's 35 under 35 list.
